

CANADIAN LEGION AND THE POST-WAR PERIOD

WINNING THE WAR AND REHABILITATION CANADA'S TWO FOREMOST DUTIES

COMPLETE LOYALTY

ONE of the most significant statements to be issued by any Canadian organization since the war began, was that made by the Canadian Legion last week when it demanded that the government set up the machinery now to make preparations for the post-war period. None knew better than the members of the Legion how necessary it is to undertake the work of planning for the after-war future. Many of the members of that organization know that the promise that Canada would be made a country fit for heroes to live in was not carried out after the last war. Indeed, it was returned soldiers who coined the jest that a man had to be a hero to live in Canada in the period when returned soldiers were the only ones who were not carried out after the last war. Indeed, it was returned soldiers who coined the jest that a man had to be a hero to live in Canada in the period when returned soldiers were the only ones who were not carried out after the last war.

DR GERSHAW WRITES FROM OTTAWA

A rare and rather historic event took place yesterday. The Session in the House of Commons was suspended for twenty minutes to allow the Prime Minister of Australia to address the members and visitors in the Gallery. Mr. King conveyed the warmest of welcomes to Mr. Menzies and expressed the great regard he had for him personally and his admiration for the Australian War effort. The visiting Prime Minister spoke calmly but very effectively. He described his trip to the various parts of the Empire and to the various parts of the Empire and to the various parts of the Empire.

NAMAKA

The regular meeting of the Ladies Aid was held at the home of Mrs. Petersen on Tuesday the 12th, and a pleasant afternoon spent in the discussion of many matters. The next meeting will be held at Mrs. Miller's on June 12th, with Mrs. Duley in charge of the devotional period, and Mrs. Petersen convening the social program.

THE UNITED CHURCH OF CANADA

Strathmore, Namaka and Chedoke (Stanley R. Hunt, B.A., B.D.) mark another year of their fellowship by an

Anniversary Day MAY 18

10:30 a.m. - Sunday School.
11:15 a.m. - Rev. W. F. Kelloway, B.D., Ph. D. Music - Junior Choir - "The Church in the Wildwood." Male Voice Selection. "True-hearted, Whole-hearted."
7:30 p.m. - Rev. W. F. Kelloway, B.D., Ph. D. Music - Senior Choir - Anthem "O Saviour of the World." Due - Mrs. Hughes & Mrs. Mercer, "Bless This House." Anthem - "Sun of My Soul."

"My own judgment is that, if the influence of the churches in the furtherance of socially wholesome and forward-looking movements, in the spread of conscientious living of all sorts, were to be eliminated, our democracy would not owe much to the past. It is a pity that it could not endure."
-Robert A. Milliken, Scientist.

"True religion is the power necessary for the development of the resources of every nation. The challenge of our time is to support his church, to take an active part in the religious life of his community, to live according to the simple principles of God-fearing founders of the nation."
-Roger W. Babson.

UNITED CHURCH CONFERENCE

Ministers and laymen will gather in Central Church, May 21 - 25. Business sessions will be held morning and afternoon.
Thursday evening at 8 p.m. Rev. H. C. Durbach will give an address on Young People's Night.
Ordination services for six young men entering the ministry will be held Friday evening.

COMING EVENTS

JUNE 21st - Strawberry Tea and Garden Party at the Park, afternoon and evening. Hoop la, Bingo, etc. Auspices Anglican Church. Watch for further announcements.

●-WANTED-●
Qualified Stenographer for one month's work, commencing May 15th. Apply in writing, to Mr. Don Whistler, Secretary, Strathmore Victory Loan Committee, not later than Saturday night, May 17th.

FLOATING MINE SCARES NEW ENGLANDER

A floating mine bobbing 50 yards offshore of Wintrop beach brought hundreds of spectators and the spreading of alarm that a serious explosion was imminent. Army officials dispatched a detail of soldiers quickly to the scene, police the armed coast-guard was called and little boys who were pelting the mine with stones were quickly routed. Eventually a large "X" was discerned on the mine, with reports that the mine was a "dud" from nearby Fort Banks, and was one of a number of practice mines which had broken loose from its moorings. ABOVE'S photo shows soldier from Fort Banks period shot the mine when caught "high and dry" by incoming tide after the mine had been brought to shore by coast-guardmen.

SURVEY OF TEACHING SERVICE

POTENTIAL SUPPLY OF TEACHERS, 1941-42

Potential Supply of Teachers, 1941-42
In view of the fact that a large number of male teachers have been drafted into war service, the Department of Education is endeavoring to make a timely survey in order to ascertain the potential supply of teachers for the year 1941-42.
There may be persons now holding valid interim or permanent certificates who could accept teaching positions in September; and there may be others holding lapsed or expired certificates who would be willing to attend the Summer School in order to reneat their certificates for use during the year 1941-42.
If your services will be available in either of the ways just mentioned, will you kindly correspond immediately with Mr. Munroe MacLeod, Superintendent Wheatland School Division No. 40, Strathmore, Alberta.

'Prophet' Recalls Prediction Says Hess Trip Fulfilled

HARRY SNIDER POINTS TO STATEMENT PUBLISHED LAST NOVEMBER 11
-SAYS WAR ENDS SOON-
Harry Snider, 69-year-old Russian born amateur prophet, read Tuesday the sensational flight to Britain of Rudolph Hess, Hitler's crony and right-hand man, and said triumphantly: "I told you so!"

And he quoted from his prediction he made one night more than six months ago to a Journal reporter: "A world war will break out in Germany and give tremendous aid in speeding the British victory." That forecast was published in The Journal, November 11, 1936, along with Mr. Snider's prophecy that this war will end on August 21, of this year an that Hitler and three other dictators will die of violence within a week of that time.

SCOUT NOTES

A meeting of the Boy Scouts local committee was held Tuesday evening, when several matters were discussed and arranged.
In order to raise funds for the trip to the Empire, the committee has arranged for a fund-raising party to be held at the Harmer's Hall Wednesday, June 11th. The Dominion Headquarters for Victory Loans are urging all citizens and business firms to decorate extensively for the duration of the Campaign, hence flags and banners will be sold by the Boy Scouts for this purpose, as soon as they are obtained.

FLIGHT OF RUDOLPH HESS

Among the big news features of the week is the flight and escape to Britain of Rudolph Hess, second in line in Herr Hitler's picked leaders.
It is early yet to come to a definite conclusion. Winston Churchill has been quoted by his biographer as remembering that he was Hitler's trusted accomplice until this escape.
Lord Halifax interprets the escape to Britain as the "Hindenburg" of the "Wall". Seen by Hess, and that he has become satiated with Hitler's cruel and unreasonable regime and has no desire to play any part in the final outcome.

CARSELAND

Mr and Mrs R. Rose of Carleton Place wish to announce the marriage of their grand-daughter Miss M. Travis of Calgary to Mr James Stewart of the recruiting office in Calgary.

CHEADLE

"THE R.A.F. ON THE FARM"

It would be a matter of conjecture as to who had the most fun at Chedoke during the week end; the two young men of the R.A.F. or those who entertained them. Ever hospitable Mr and Mrs F. Cramer invited A. C. W. Stainer, England, and A. C. Thomas "Taffy" Evans, Wales, to spend the week end with them. New arrivals in Calgary after a weary 3 weeks journey from Britain, they were boundless. They liked everything they saw and their enthusiasm had no end.
The climax of the week end came when some of the young people took them horse back riding, a "first" for "Taffy" the Welshman. They rode several miles out on pasture and to see a herd of cattle and have their pictures taken. The cattle, astonished to see so many riders (seven in all) obligingly stood around in front of the camera.
After the ride they all stopped at Mr McLean's for tea, there the two boys found cowboy regalia which they

RADIOS SHRINK IN SIZE

Radio scientists have again achieved the impossible. They have packed new, smaller radio tubes - a new, smaller "B" battery which packs maximum power in minimum space. The result is an entirely different type of small, personal radio which is so small, so light, that size and weight cease to be a problem. Canadian manufacturers are reaping an astonishing demand for these tiny sets.

Strathmore Meets For School Children Friday SPORTS DAY

Children accompanied by their teachers will invade Strathmore Friday to take part in the annual school sports of Strathmore and district.
Weather and health conditions permitting it is anticipated there will be about 300 children competing in the events.

SCOUT NOTES

A meeting of the Boy Scouts local committee was held Tuesday evening, when several matters were discussed and arranged.
In order to raise funds for the trip to the Empire, the committee has arranged for a fund-raising party to be held at the Harmer's Hall Wednesday, June 11th. The Dominion Headquarters for Victory Loans are urging all citizens and business firms to decorate extensively for the duration of the Campaign, hence flags and banners will be sold by the Boy Scouts for this purpose, as soon as they are obtained.

TIMELY HINTS TO PROTECT SHRUBS

Flowers and shrubs in gardens and porches can be protected against damage by cats and dogs by the simple use of a dilute nicotine sulphate spray. The spray is harmless to these animals, even when so thin-fog applied that persons are unaware of its presence.
Nicotine sulphate may be bought at any seed or drug store and should be used at the rate of one half teaspoon per gallon of water. The spray evaporates and should be renewed after the rain. In ordinary weather spraying every two weeks is sufficient.

WHITEWASHING HINTS

White-wash is cheap, readily available, sanitary and easy to apply. It protects the surface and brightens up dark interiors.
The surface to be white-washed should be free from dirt, grease and scaly material. A stiff brush may be used to clean the surface. Just before white-wash is applied, the surface should be slightly dampened. White-wash is easy to apply with a brush, but a sprayer may be used. The surface should be worked rapidly, and do not attempt to "brush out" white-wash as is done with paint. Under ordinary conditions, one gallon of white-wash is sufficient to cover 225 square feet of wood, 180 square feet of brick and 270 square feet of plaster.

THE DEATH OF ABB HINCHLIFF

Funeral services for ABB Hinchliff, 87, of Calgary were conducted at the Pro-Cathedral of the Redeemer on Monday at 2:45 o'clock, with Rev. Alexander Patterson officiating.
Pallbearers were M. J. Craig, Bro. Orskov, T. Fraser, J. Hilton, H. Jones, A. Munro and L. Murgatroyd. Interment was in the family plot, Burnside cemetery. Jacques funeral home was in charge of arrangements.
Mr Hinchliff was a Strathmore resident for a number of years and may well recall pleasant memories of companionship. Ronnie Hinchliff is a grandson.
It was an interesting week end for us as well as it was for them. Now we know what they mean when they speak of British humor and morale. The boys found cowboy regalia which they

FEEDING THE LAWN

LEATHERIDGE EXPERIMENTAL STATION

The maintenance of a thrifty and luxuriant lawn is based primarily on the combined use of fertilizers and a uniform soil moisture supply. The healthy dark green color and dense turf of the lawns at the Leatheridge Experimental Station demonstrates this principle.
Fertilizing lawns at this Station is a simple procedure. It consists of applying barium manganate in the late fall and harrowing down the lumps while they are still moist in the early spring. Sun thereafter they are raked with the idea of not only removing the excess decay residue but rather to incorporate the short manure into the lawn. Somewhat later in the season, commercial fertilizers are applied.
The time of application and the selection of commercial fertilizers depends largely on the condition of the grass. If the lawn is vigorous and healthy in the spring, ammonium phosphate is applied at the rate of 150 lbs. per acre once during each month of May, June and July. However, if the grass is slow to grow in the spring or if it has been thinned out by the drying effects of the chinook winds during winter, the use of a nitrogen carrying fertilizer such as ammonium sulphate is applied in late April. This fertilizer is applied in late April at the rate of 200 pounds per acre. Its use promotes rapid root and top development. It is anticipated there will be about 300 children competing in the events.

Commercial fertilizers such as phosphate and sulphate of ammonia are caustic to vegetation and will burn lawn grass if they fall on the foliage. Therefore it is of considerable importance to water the lawn and wash the fertilizer into the soil soon after it is applied. Applying just before a rain or irrigation is a good practice.
Plants can make use of the food in the soil or in fertilizers only when they are supplied in adequate and uniform soil moisture. Hence a garden hose with an unlimited water supply is a boon, and flood irrigation facilities are a necessity. The efficiency of the system of irrigation used, the fact that a long and thorough soaking is essential, cannot be over-emphasized.

SCOUT NOTES

A meeting of the Boy Scouts local committee was held Tuesday evening, when several matters were discussed and arranged.
In order to raise funds for the trip to the Empire, the committee has arranged for a fund-raising party to be held at the Harmer's Hall Wednesday, June 11th. When I have borne in memory what
has faded
Great Nations, how ennobling
thoughts depart
When men change swords for ledgers,
and desert
The student's bowler for gold, some
fears unnamed
I had, my Country — am I to be
blamed?
Now, when I think of thee, and what
thou art,
Verily, in the bottom of my heart,
Of these unfulfill fears I am ashamed.
For dearly must we prize thee, we
who find
In thee a bulwark for the cause of
men,
And I by my affection was beguiled.
What wonder if I poet now and then,
Among the many movements of the
mind,
Felt for thee as a lover or a child?
—(William Wordsworth)

Under The Street Lamp

by P. E. (Pat) O'Healey

The little guests at
a party were being
arranged in a group
for a flashlight photo-
graph. Seeing one
little fellow who ap-
peared rather averted
the photographer spoke
to him kindly.
"Cheer up, sonny," he said, "Smile
at this little girl over here."
"Why should I?" he demanded indignantly.
"She's my sister."

"May be milked any week day at
6 p.m." —from the Classified column
in last week's Standard.
Sundays and holidays by appointment?

Zebra: "What killed the laughing hyena?"
Tiger: "Some high school students
came in here the other day, and he
fled from over-exertion."

Mr. MacKenzie: "Use the word 'regiment'
in a sentence."
Dorothy Bease: "Regiment well but he
got his face slapped."

He was relating his adventures to
his fiancée.
"I had to hack my way through al-
most impenetrable jungle," he said,
"Chopping trees, slashing at under-
growth and—"
"Oh, Eddie," said Hazel, ecstatically,
"you'll be an expert at weeding
the garden."

"During the signing of the register,
the brides cousins sang 'Bearing His
Cross'."
"Exchange."
Well, he can't say that they didn't
warn him.

STRATHMORE ALBERTA

THE WEEK IN EDMONTON

EDMONTON BIDS GOODSEE

TO FUSILIERS—
Edmonton said goodbye to another
body of her sons — and other Alber-
tans — when the Fusiliers left the
city this week. They were leaving for
"overseas" in Canada, and a great
number of friends and relatives saw
them off. Later it was reported that
the Fusiliers had arrived at New
Westminster, "browned and present-
ing a smart appearance." The men
are under command of Lt. Col. Har-
cus Strachan, V. C. and are preparing
for active service in the combat zone.

UNIVERSITY RESIDENCES FOR

NATIONAL DEFENSE DEPT.—
Negotiations are proceeding be-
tween the Provincial Government and
the Dominion for the transfer of Uni-
versity residences June 1. They will
be used by the Department of National
Defence, included in the transac-
tion are Alhambra, Assiniboine and
Pembina dormitories, the Normal
school and St. Joseph's dormitory. It
is expected that the R. C. A. F. will
be in possession. Students will not be
hampered in their scholastic work,
but they will be obliged to seek lodg-
ings elsewhere. Representing the pro-
vince is Hon. W. A. G. Fulton, while
Lt. Col. Goodwin Gibson is acting for
the Dominion.

EDMONTON VIES WITH

DRUMHELLER IN "BONE"
RELICS—

Drumheller will have to look to its
laurels, if the present bone-hunting
fad in Edmonton continues to show
success. While the mining city claims
Dinosaur Park as a prime tourist at-
traction, the capital is also in the run-
ning as a fossil discovery ground.
Civic workers some time ago unearthed
ancient bones from gravel pits. Now
C. W. Motter has unearthed a
huge dinosaur below the Country
Club property in the river bed. Ex-
ceptionally low water permitted the
prospector to unearth the skeleton.
But rising waters are keeping three
diggers in a frantic race now. It is
said that the new discovery is bigger
than anything unearthed in the fledg-
ling Badlands. An interested visitor
last week was F. Jungling, whose col-
lection of dinosaur remains is one of
the best of its kind in the Badlands
area.

MONTANA BOOSTS ALBERTA'S

NATIONAL PARKS—

Montana is boosting Alberta as a
vacation land as an expression of
good will and friendship, according to
information received in the Alberta
Travel Bureau. A. J. Breitenstein,
secretary of the Great Falls chamber
of commerce, wrote that his organ-
ization is urging citizens to visit Al-
berta and other Canadian provinces
when vacationing this year. "We are
pointing out to the Canadian people
will appreciate these visits and that
it will give residents of Great Falls
and vicinity an opportunity to visit
the beautiful parks of Alberta."

ALBERTA ROUTE TO ALASKA

GROWS IN FAVOR—

Strong support for the Alberta
Route to Alaska Highway plan has
particular attention to the virtues of
the route as outlined in the official Al-
berta folder advertising the "ice side
of the mountains" as the logical and
economical one to follow. It is ex-
pected that more support will be forth-
coming at the conference to be held
in Regina later this month. Trade
board of Canada and U. S. particu-
larly in prairie sections will be rep-
resented in strong force. They will urge
the highways commission to consider
the prairie route.

NOTES FOR ANGLERS—

Alberta's anglers may go to it on
May 16 if they live — or fish — north
of the lines cut by the Red Deer and
North Saskatchewan rivers. Season's
opening was announced last week by
Hon. N. E. Tanner, Minister of
Lands and Mines. On the Athabasca
river, however, the season opens
June 1, and in Southern Alberta from
the boundary to the Bow, June 1.
Spray and Kananaskis Lakes will op-
en June 16; Highwood river, June 1.
No one shall catch or retain more than
20 cutthroat. Loch Leven, rainbow,
speckled or brown trout or grayling,
or Rock Mountain whitefish, is one
day. License cost \$2.50 — about the
cheapest in Canada, and where the
fish named are absent there is no
license. Children under sixteen fish
free.

PERMITS FOR HUNTING

AND TRAPPING—

A limited open season on badger
has been announced by the Game
Branch. It is reported that in some
sections natural increase has brought
poultry ravages and live stock inju-
ries through holes in pastures. Full

particulars of permits where required
will be given by game guardians or
by the Game Commission's office,
Edmonton. Hunting or trapping is
permitted.

ROAD IMPROVEMENTS—

Contracts for the graveling of 85
miles of highway have been awarded
by the Public Works Department as
a starter to this year's road program.
Work crews also commenced opera-
tions between Strathmore-Gleichen,
Inverlake-Drumheller, Red Deer-
Sylvan Lake and Kapaswin-Wabun.
Machine maintenance crews in the
Edmonton depot have dispatched
heavy machinery to points designated
for the season's work.

DEPARTMENT OF

AGRICULTURE NOTES—

Sow Forage Crop Seed in Moist Land
A moist, firm seed bed is needed
and with forage crops one cannot
set the drill deep to reach the moisture
for these seeds must not be sown
deeper than one inch.

Do not seed forage crops until the
soil is moist and firm and then seed
no deeper than one inch.

Fly Spray—

A cheap effective fly spray can be
made right at the home farm. Into
one gallon of high test kerosene (coal
oil) add 2-4 pound of fresh Pyrethrum
Flowers. Allow the Pyrethrum to
soak in the kerosene for 24 hours,
stirring it occasionally, then allow
this mixture to settle for another 24
hours, and then pour off the kerosene
which is used for the spray.

The common house fly is not only
a nuisance but is dangerous as well,
because it frequently spreads dis-
ease. This formula is one of a num-
ber for the control of insect pests
which is contained in the Department
of Agriculture's Bulletin No. 42.

Horse Improvement—

There are possibilities in the rais-
ing of horses under present condi-
tions. An expansion in numbers is
not justified at this time, but raising
a few good colts to maintain the
farm power supply is warranted. If
the course of the war should restrict
the delivery of tractors or limit the
quantity of fuel available, agricul-
ture would again have to rely on hor-
ses for power. Furthermore, there is
always a market for a few good hor-
ses.

The Department of Agriculture—

directs a Co-operative stallion Purchase
Policy under which a group of farm-
ers may pool their resources to pur-
chase a pure bred stallion.

High Quality Eggs—

Other eggs at least four times a
day, using a wire basket or an old pail
punched of holes. Place the eggs at
once in a clean, well ventilated cellar,
where the temperature is about 50
degrees. A moist room is desirable,
but it must not be musty, and it must
not contain fresh fruit or vegetables.

Pack eggs with the large end up af-
ter they have cooled for at least 12
hours. Never wash eggs and do not
dip with a brush or steel wool.

It has been estimated that there
more losses of eggs and chicks from
poisonous plants than any other sin-
gle factor.

If allowing live stock to have free
access to salt at all times, they will
not develop a deranged appetite and

WINGS FOR BRITAIN

THE following lines, translated from Gray's "Luna Habitabilis," written at Cambridge in 1737, are being published throughout Canada as a prophecy which Wings for Britain, a volunteer Canadian fund, located at 215 St. James Street West, Montreal, hopes to help come true. Wings for Britain has been registered under the War Charities Act and is incorporated in Canada to serve as an agency through which all contributions to the R. A. F. may be made.

"LUNA HABITABILIS"
Cambridge 1737

The time will come, when thou shalt lift thine eyes

To watch a long-drawn battle in the skies,

While aged peasants, too amazed for

words,

Stare at the flying fleets of wood'rous birds,
England, so long the mistress of the seas.

Where winds and waves confess her sovereignty,
Her ancient triumphs yet on high shall bear,
And reign, the sovereign of the conquered air.

Every \$22,350 contributed through Wings for Britain purchases another fighter plane to help the R. A. F. gain mastery of the air.

A GENTLE REMINDER

It is stated by the War Finance Committee that a number of persons who pledged themselves to buy War Savings Certificates regularly, are

falling by the wayside.

It has long been proved that Canada takes second place to no other country in the matter of meeting its pledged obligations. The country's record in the last great war still stands as living proof of the country's integrity.

Nearly two millions signed to buy regularly. It is felt that a gentle reminder is all that is necessary to bring in the remainder.

ABOUT THE WAR LOAN CAMPAIGN

IN fairness to the hundreds of earnest workers who are devoting their time to the promotion of War Savings Certificates sales, these bulletins have contained little to date about the advance preparation being made against the launching of the Victory Loan 1941.

It might be in order, however, to state at this time that the creation of the War Loan Organization and the subsequent functioning of all its varied departments will prove to be nothing short of inspirational to the press

of Canada when the opportune time

CANADA CALLS

Canada has reason to count her blessings in these days of trial.

Canada is three thousand miles away from the sound of guns which are devastating Europe.

The broad Atlantic Ocean rolls between us and the ruthless savagery of the German Armies.

The strongest fleets in the world—British, American and Canadian—patrol the sea between us and the enemy.

We have a great friendly nation, probably the richest and most powerful in the world, at our side.

CANADA CAN AFFORD HER SACRIFICES

This war is a mechanized war.

We have the nickel . . . copper . . . lead . . . zinc and other metals the war industries need. We have access to the iron. We can make the steel.

We have the organized industries to fabricate these metals and make the trucks, and tanks, and guns, and planes, and the ships.

We have skilled workers and the plants for mass production. Canada has the wheat and the food supplies.

Let us count our blessings, and tighten our belts.

Canada is rich—one of the richest countries per head of population in the world. Let us lend our strength to the utmost of our power. Our national future depends upon Victory.

We must win to live.

THERE WILL BE FURTHER CALLS

There have been many calls upon the people of this country for money since Canada entered the war at the side of Great Britain.

There will be further calls.

Let us face the future unafraid.

Canada can carry the load.

But every Canadian must shoulder his and her share.

This is the most critical hour in our history. Let the future historians say of Canada, as they will say of our Mother Country: "This was their finest hour."

Get under your load...and LIFT

comes to unfold the story.

For weeks now war loan officials at Ottawa and at various headquarters throughout Canada have been working night and day to set up what will likely prove to be the most efficient machine of its kind in Canada's history.

When the light turns green and the press of Canada gets the go ahead signal for its part in the War Loan Campaign, publications will have a very active time in keeping step with the fast pace being set by the War Loan Organization.

CANADA'S VICTORY LOAN, 1941.

Canada's Victory War Loan being launched in June, differs from the Canadian War Services Fund, and the War Savings Certificate Campaign.

It differs from the former in that it is an investment, not a donation, and it differs from the War Savings Certificates in that that was an appeal for all Canadians to invest all they could spare from their yearly earnings — but in the Victory Loan 1941, the appeal is made to Canadians to invest from their Bank Savings or using their credit on bonds or other

New Gasoline Tax Not Tourist Bar

While the Dominion government has imposed a three cent a gallon gasoline tax, this should not deter U. S. tourists from entering this country.

Officials of the Alberta Motor Association have given some study to the question and feel that while in some cases the new tax may keep a few tourists away, this will not be a general result, by any means.

While provincial and Dominion gasoline taxes have the effect of adding 10 cents a gallon to the price of gasoline, the U. S. tourist obtains a premium of 10 per cent on the money he brings into Canada. The result is that his exchange premium more than offsets any additional cost of his fuel.

property.

The bond issue will be in denominations of fifty dollars and up.

This is an investment on which one can go to the bank and borrow up to eighty per cent of the face value of the bond.

Help Canada win the war by providing money to build ships, equip our forces and to assist the Mother Country in its purchases here.

Wheat Deliveries

Producers should carefully study the Government's 1941 Wheat Policy to determine which alternative will bring them the best return.

It will be necessary for producers who wish to deliver their 1940 crop and collect farm storage to do so before August 1st, 1941, when the 1941 crop delivery quota becomes effective.

nouncement.

Mrs. Werling and Mrs. Kenneth
Beattie (nee Eileen Werling) were
guests of Mrs. Frank Jones and Fran-
ces the early part of the week last
Wednesday at Calgary. Mrs.
Beattie will remain with her mother
until the end of May when she will
leave for Sherbrooke, Quebec to be
near her husband and stay with his
people.

Mr. and Mrs. A. D. Shrimpton are
enjoying a few days in the mountains.

J. B. Watson has secured a position
at Penhold, Alta.

Mr. and Mrs. O. Wright and Mr.
Percy Wright attended the funeral of
Mr. Hinchcliffe in Calgary, Monday.

Dr. and Mrs. J. Giffon and baby son
are spending the week in Edmonton
where the Doctor is attending a Re-
freshers course at the University.

Mr. and Mrs. D. J. Perry spent last
Sunday at Bonanza Park, joining the
C. P. R. Golfing Party for the day at
this delightful summer park.

Dr. W. P. Kelloway at United Church
are spending the week in Edmonton
where the Doctor is attending a Re-
freshers course at the University.

Many very highly complimentary
comments have been made about the
rendering of the solo by Mrs. T. S.
Hughes, Sunday evening last.

Anson Chase is remodeling the
lower half of the Chase Building on
Third St., and is planning to make it
a modern and attractive living suite.

The Mother's Day Tea give by the
Ladies of United Church in the Sam-
ple Room of King Edward Hotel was
a very gratifying success, about \$25.00
being added to the Treasury. Mrs.
Hunt and Mrs. Garrett were in charge
of the Home Cooking Table. Tea ar-
rangements were conveyed by Mrs.
Lonsbury, assisted by the members
of the Aid.

Mr. D. MacMurtrei and Rev. S. R.
Hunt attended the Calgary Presby-
tery of the United Church in Wesley
Church on May 13th. A large agenda
was covered in preparation for the
Annual Conference which will be held
in Central Church, Calgary.

The infant son of Mr. and Mrs. Leo
Roberts was baptized Sunday morning
at St. Michael's Church, Bert Wor-
thington. Mr. and Mrs. Baker were the god
parents.

Mr. and Mrs. Fred Holmes are receiv-
ing congratulations on the birth of a
baby boy Monday, May 12th.

CHRISTIAN SCIENCE—
"Mortals and Immortals" is the
subject of the Lesson-Sermon at all
Christian Science Churches on Sun-
day. The Golden Text is Proverbs
9:16. One of the Scriptural citations is
"Rejoice not against me, O mine en-
emy; when I fall, I shall arise; when I
am laid into darkness, the Lord shall be
a light unto me" (Micah 7:8). One of
the correlative passages from "Science
and Health with Key to the Scrip-
tures" by Mary Baker Eddy, is "We
can, and ultimately shall, rise as to
avail ourselves in every direction of
the supremacy of Truth over error.
Life over death, and good over evil,
and this growth will go on until we
arrive at the fulness of God's ideal,
and no more fear that we shall be
sick and die" (p. 466).

The recent bus driver, Acme and
adjacent rural districts which were
to have been held Wednesday, May
14th were postponed on account of
rain. They will be held in approxi-
mately one week.

Miss Mary Redinger is leaving dur-
ing June to accept a position in
Brooks. She has many friends in
Strathmore who will truly regret her
departure, but will wish her the best
in her new field.

Mayor T. S. Hughes and Mrs. Hughes
and Mr. W. E. Mercer are in Edmon-
ton attending a Convention of the
Masonic Order.

Saturday next Messrs. A. Pierson,
T. S. Hughes and A. V. McFarland
are planning an outing near Kan-
naska to do some fishing.

Takes Complete Control

Your letters were dated Feb. 20th
and 12th. You asked about the bomb-
ing — we have had none in this dis-
trict all winter. Night before last, I
was on picket from 12 to 3 a.m., and
you could hear several "Jerry" planes
flying over head, and the anti-air-
craft guns were booming. However,
yet they didn't drop anything around
here. "Jerry" planes have a distinct
sound to their motor which you can
always distinguish. It is a "whoo-oo"
"who-oo" in instead of the even sound
of our motors. At night you can see
bunches of bright flames in the sky
spray out and start to drop and then
go out. That is the shrapnel from the
Ack Ack guns. The sound of the guns
comes seconds, sometimes even min-
utes depending on the distance away
after the shower of sparks. We see
this and hear guns most any night.

I have been in many parts of Lon-
don since the big raids there, and the
damage is very small compared to
the number of buildings — every-
thing carries on as usual. One thing
that is very heart-breaking is to see
all the people spending their night
in the "tubs" for air raid protection.
They always look so helpless and
yet very monotonous spending every
evening in a shelter — not. I never
over did it, but I've been with
London girls and they have described
the combination of fear and boredom.
I shall have a roll of silver
back tomorrow and if it turns out,
I am on orderly room duty tonight,
and we have a big inspection by some
big shot tomorrow. I hope it goes off
O. K. I report all day, even though it
is Sunday, polishing, washing, and
painting my bike. I get off here at 8
in the morning and will have to dash
home and clean up, read for vehicle
and bullet inspection in the morning,
and inspection of the personnel,
(that's you) in the afternoon.

I was out with a swell girl Monday
night at a town up near the Rhine,
where I was attached to the scheme.
We no longer play Friday night for
dances, as some English troops took
over the Canadian canteen we play
for, so I suppose they'll have an Eng-
lish orchestra if they have dances at
all.

Say Man, if you ever run across
that snaphop of me taken at Water-
ton when Windy and I were down
sitting on the horse, would you send
it to me. I have to show them the
fishmen that I'm really from the west.
Don't send any of the others as I want
them saved, and I'd only lose them
over here. Also sometime I would
mind a couple of packages of Menthol-
eigs, as you can't get them over here.
You can't get wetters either, is there
such a thing as canned wetters that
you could send sometime?

I can always use some slotted razor
blades, also haven't had a can of pen-
cil butter for a long time. Your pen-
cils are always swell, hope you don't
mind me asking for things. Most
things are fine once in a while for a
change, but I wish you'd slip some
razor blades into every parcel.

I think I'd better sign off now, will
try and write a little more steady
than I have been.

An over, your loving son, Doug.

Negotiating Alliances

According to a report from a
London news agency despatched in
London, British ambassador in
China, is negotiating a secret mili-
tary pact with the Chinese govern-
ment of Generalissimo Chiang Kai-
shek. Under the terms of the al-
leged pact, Britain would ex-
plicit war supplies to China and
secretly assist assembly plant
in India, Burma and Singapore to
produce warplanes for China. It is
the event of Britain becoming in-
volved in war with Japan, the re-
port says, General Chiang's forces
would come under command of the
British Far Eastern command-in-
chief.

Col. Batista, Cuba's "strong man",

in a surprise move fired his police
chief, arrested army and navy
leaders, and took over complete con-
trol of the country, as he slipped
an alleged totalitarian plot against
his life.

ANOTHER TAXI STORY

Here is a recent story from irre-
pressible London, published in the
current issue of This Week Magazine.
Winston Churchill was visiting
friends in the West End of London on
the afternoon of a recent broadcast.
He left rather late and stepped up to a
cab stand, telling the driver to go to
the BBC studios.

"You'll have to take another cab,
sir, I can't go that far," the driver
told him.

"My Churchill is broadcasting in an
hour and I want to get home and time
in."

This pleased Churchill and he pul-
led out a pound note. The driver took
one look at the note and said—
"I'll be in, sir, I'll be in, sir."

OGDEN'S FINE CUT
CIGARETTE TOBACCO

A LETTER FROM DOUG HIRTLE

England, March 16th, 1941
Dear Mother — Well I got your last
parcel O. K. and it came at a very
good time. We just got back from a
three day scheme during which we
rode steady all the time. Practically,
and slept under the stars and missed
an odd meal, so when I came home
finally at about 8:30 one evening the
first time in three days to be out of
the wind and feel the calm of a stat-
ionary abode, I was sure glad to find
your parcel along with a couple of
letters.

We whipped right in and
made some coffee and ate the cookies
and boy did it all taste good. The next
night we went for a walk (Tom, Cecil
and I), and then came home and had
coffee and chicken sandwiches from
your canned chicken. Genuinely (the
chocolate kid) and I have polished
off all the chocolate bars with great
vigor. I still have the corn, which I am
saving for some time when I don't
like the dinner, and the lobster, and
am still chewing on the gum. The to-
bacco I am keeping as a reserve for
some time when cigarettes fail me. I
do sometimes miss two or three pack-
ages in a row. You asked about the
socks, I can assure you them once in
a while and I don't mind what they are
like as long as they work.

Your letters were dated Feb. 20th
and 12th. You asked about the bomb-
ing — we have had none in this dis-
trict all winter. Night before last, I
was on picket from 12 to 3 a.m., and
you could hear several "Jerry" planes
flying over head, and the anti-air-
craft guns were booming. However,
yet they didn't drop anything around
here. "Jerry" planes have a distinct
sound to their motor which you can
always distinguish. It is a "whoo-oo"
"who-oo" in instead of the even sound
of our motors. At night you can see
bunches of bright flames in the sky
spray out and start to drop and then
go out. That is the shrapnel from the
Ack Ack guns. The sound of the guns
comes seconds, sometimes even min-
utes depending on the distance away
after the shower of sparks. We see
this and hear guns most any night.
